Nature’s Frontiers: Achieving Sustainability, Efficiency, and Prosperity with Natural Capital

On p. 137, second paragraph, the first two sentences of the paragraph have been revised to the following: “Since achieving independence in 1991, Azerbaijan has seen its economy grow substantially, with per capita GDP rising from US$1,596 in 1993 to US$5,506 in 2014. Average growth rates have slowed since 2014, coinciding with the end of the commodity boom.”

On p. 138, second paragraph, the last two sentences of the paragraph have been revised to the following: “Azerbaijan’s nationally determined contribution (NDC) pledges to reduce emissions by 35 percent by 2030 relative to 1990 levels. At the 2021 United Nations Climate Change Conference, the country announced an additional target of a 40 percent reduction by 2050.”

On p. 142, last paragraph, the second sentence has been revised to the following: “This stagnation can be attributed in part to agriculture becoming less input intensive.”

On p. 144, on the fourth line, “and technologies” has been inserted after “…use of inputs…”; at the end of the paragraph, citations to Dias Avila and Evenson 2010 and Fuglie et al. 2019 have been added.

On p. 165, in the reference section of chapter 6, entries have been added for Dias Avila and Evenson 2010 and Fuglie et al. 2019.
